### Cub Energy Reports Voluntary Cancellation of Stock Options

Houston, Texas – February 23, 2015 – Cub Energy Inc. (“Cub” or the “Company”) (TSX-V: KUB) announces the voluntary cancellation of 16,130,000 stock options, of which 10,330,000 were options held by directors and officers. The Company has a total of 311,746,285 issued and outstanding shares.

With recent market turmoil, the geopolitical climate in Ukraine and the drop in the Cub’s share price, several current option holders (including employees, consultants and directors) have agreed to cancel their currently issued and outstanding options and relinquish their rights to the options, including any right to exercise the options in the future. This cancellation will provide management with the flexibility to use other incentive plans in the future, without creating further dilution to the Corporation’s shareholders.

#### **About Cub Energy Inc.**

Cub Energy Inc. (TSX-V: KUB) is an upstream oil and gas company, with a proven track record of exploration and production cost efficiency in the Black Sea region. The Company’s strategy is to implement western technology and capital, combined with local expertise and ownership, to increase value in its undeveloped land base, creating and further building a portfolio of producing oil and gas assets within a high pricing environment.
